Weather the Storm

Kentucky is a national leader in the construction of Insulated Concrete Form buildings.

Concrete Lasts a Lifetime

We can help construct commercial and residential buildings that are disaster resilient!

- Concrete wall systems—including Insulated Concrete Forms, Cast-in-Place, and Tilt-Up—are disaster resilient.
- These buildings are energy-efficient, saving owners on heating and cooling costs.
- Up-front costs are competitive with traditionally-built structures.

Weather the storm with disaster-resilient concrete. Call 502.695.1535 or e-mail bruffing@krmca.org to learn more.
